

1. What is the earliest finish date for this project if it is scheduled to start on 10/7/21? (under this scenario, as soon as engineers complete their tasks on Homework#1 you will assign them to start working on tasks for Homework#2 project)

1/12/22

2. Is it feasible to complete this project (Assignment#2 project) 2 weeks after the completion date you identified for the project in Assignment#1? Explain.

Yes, it is feasible because my project 2 is ending after 8 days of the 1st project which is not a big time. I can manage my resource allocation and I can finish it in 2 weeks after the completion of Project 1

3.
